

LONG BEACH (Phra Ae)

Ko Lanta is an island of wonderful beaches facing west, with magical sunsets and verdant jungle. The most popular of its beaches is the Long Beach with several little Restaurants and Bars directly on the beach. The Baan Saladan village and the ferry pier are only a few minutes away.

It's a place where the most difficult decision of your day will be, if you should have a snack before the massage, a coconut shake or just a freshly squeezed juice. Why spoil the day with work, if it works to be spoiled by the day!
